SPEKTRUM SMART LIGHTING

Spektrum Smart Lighting is American Lighting's new Bluetooth mesh connected product line. Focusing on smart home integration, the Spektrum Lighting app provides instant lighting control that allows users to customize their lighting spaces to their liking. From simple dimming controls to advanced scene settings, unlock whole home connected lighting with Spektrum Smart Lighting.

SPEKTRUM SMART LIGHTING APP FEATURES:

- Compatible with most iOS and Android Smart Devices
- Easy dial control for Single Color, Tunable CCT, or RGB+TW fixtures
- Use zones to create groupings of lights
- Create custom presets with color or brightness settings
- Set timers & schedules to automate your lighting
- Create fun color changing effects with reactive audio sequences

Available on Google Play & App Store

TRULUX™ LIGHTING SYSTEMS

Tailored for Lighting Design

The Trulux™ Custom Cut Program allows for fully tailored lighting designs, ready to install. Order only what you need. Choose from Single Color Tunable CCT, and RGB/RGBW options featuring the best color rendering available in the marketplace (94-97 CRI, LM79 certified). Expand your lighting design with Trulux controllers and extrusions allowing for further customization and greater design flexibility.

Specify lead wire length (3ft included)

Specify tape light length up to the maximum run

Trulux Tape Light available in Single Color, Tunable CCT, RGB, RGBW, and RGB+TW tape light

Learn more at americanlighting.com/trulux-custom-cut

TRULUX™ Tape Light Made Easy!

Trulux tape light kits come with everything you need to create linear lighting effects in your home or commercial property. No more piecing together a system or calculating wattage loads because each kit comes standard with hand-held remote, driver, receiver, connectors, and tape light.

What's included in the kits?

16.4ft of Tape Light + 15ft Spool of Wire & All Necessary Connectors

Wireless Remote

- Ready to install 24V DC kit with plug and play connection
- Available in Single Color, Tunable CCT, RGB, and RGB+WW kits
- Wireless remote features brightness and color adjustment settings
- Each tape light kit has a maximum run of 16.4 feet
- Includes 15ft spool of wire, tape light connectors, and splices
- cULus Listed (dry location)

TRULUX™ Lighting Systems

The Trulux Lighting System allows you to mix and match among four categories of tape light, and a variety of controllers and extrusions. Different grades of tape light vary in lumen output, while the array of color temperatures let you set the right ambiance depending on the space and individual preference. For multi-purpose spaces, choose Tunable CCT or dynamic RGB, RGBW, and RGB+TW for maximum customization.

SPEKTRUM RGB+TW Tape Kit - 24V

Spektrum Smart Lighting by American Lighting is the all new Bluetooth Mesh product family that allows users to fully customize and control lighting for everyday use from the convenience of a smart device. The Spektrum RGB + Tunable CCT tape light kit is the ultimate option in color changing RGB linear lighting technology. With RGB+TW, not only do you have a virtually unlimited RGB palette of color combinations, you also have the ability to adjust true white light ranging from 2700K up 6000K. Providing intense color saturation, transition effects, and fade to white lighting effects for limitless color combinations perfectly bundled into an easy to install kit.

Trulux Tape Light

TRULUX™ Single Color Accessories

Building a Trulux system is easy! Our Trulux controllers utilize wireless technology to make installation a breeze. All that's required is a 120V power source to a 12V/24V driver which is then fed to a Trulux receiver. Wire your tape to the receiver, sync the receiver to the controller, and you're all set.

TRULUX™ Tunable CCT Accessories

Building a Trulux system is easy! Our Trulux Tunable CCT controllers feature wireless technology that makes installation a breeze. All that's required is a 120V power source to a 12V power supply which is then fed to a Trulux receiver. Wire your tape to the receiver, sync the receiver to the controller, and you're all set.

TRULUX™ Color Changing

Dynamic lighting effects are easily attainable using Trulux RGB and RGB+TW based tape light. Trulux RGB is the perfect option when vibrant color is your primary goal, while RGBW benefits from the addition of dedicated warm white diodes that provide a more traditional light for every day use. RGB+TW tape light is the ultimate color changing option with thousands of RGB colors and 2700-6000K tunable white lighting.

TRULUX™ RGB+TW - 24V

RGB + Tunable CCT tape light is the ultimate option in color changing RGB linear lighting technology. With RGB+TW, not only do you have a virtually unlimited RGB palette of color combinations, you also have the ability to adjust true white light ranging from 2700K up to 6000K. Providing intense color saturation, transition effects, and fade to white lighting effects for limitless color combinations.

TRULUX™ DMX Receivers

Our Trulux DMX receivers are constant voltage DMX512 decoders designed with DMX512 compliant control interfaces, which enables users to set DMX addresses freely featuring digital numeric displays. Trulux DMX receivers are not only compatible with Trulux DMX controllers, but also other advanced auxiliary DMX controls.

REC-DMX-5A-4Z

Trulux DMX 4-Channel Receiver
(DMX Signal Receiver / Decoder)

- Compatible with Single Color, Tunable CCT, RGB/RGB+WW
- 4-Channel output
- 4 x (60-180W) 5A per channel
- One DMX control can 'talk' to multiple receivers
- For multiple addressing, a separate receiver is required
- Requires 12-24V DC input
- Requires Trulux DMX controller or auxiliary DMX control

REC-DMX-RJ45-5CH

Trulux DMX 5-Channel Receiver
(DMX Signal Receiver / Decoder)

- Compatible with Single Color, Tunable CCT, RGB, RGB+WW and RGB+TW Tape Light
- Features RJ45, XLR5, or direct DMX wire inputs
- 5 x (96-192W) 8A per channel
- 0.1 - 9.9 gamma value output dimming curve range
- 8 bit or 16 bit PWM output resolution ratio
- For multiple addressing, a separate receiver is required
- Requires 12-24V DC input & Trulux or auxiliary DMX controller for operation

TRULUX™ Specialty Tape Light

New specialty tape light options give you even more Trulux freedom. Bendable has the ability to shine light onto a curved wall or reception desk while mounted to a ceiling or the underside of a ledge. Edgelit will also light curved surfaces, grazing the curve to which it's mounted. Submersible (IP68) tape light brings color and light to water, such as inside waterfalls, ponds and fountains.

- Good color rendering (80+ CRI)
- 3000K color temperature
- 155 lumens per foot performance
- Consumes up to 2.93 watts per foot
- Dimmable with ELV dimmers
- Cuttable every 1.97"
- 16.4 foot max run
- (IP54) unjacketed
- 50,000 hours rated life

Available CCT

3000K

Control Options

- Trulux Single Color Controls
 - Requires Adaptive Driver + Trulux Receiver
- Primary Side Dimming
 - Requires Standard Dimmer + Adaptive Driver

Listing / Ratings

TRULUX™ Edge Lit - 24V

The Edge-lit series is a great grazing tool, whether it be for columns, back bars, reception areas or niches. Cast warm white light onto surfaces, bending around obstacles and corners easily and seamlessly thanks in part to its extremely low profile making for a great solution to installs with limited back lighting space.

Trulux Tape Light

TRULUX™ Drywall Channel

Create clean lines of light using recessed drywall extrusions in three variations, each sold in 2-meter lengths. For new construction, install the rough-in housing first, choosing between 1/2" and 5/8" versions depending upon drywall thickness, then use with the Mini Flange insert and the type of tape light best suited for your application. For remodel applications, use either the Standard Flange with mounting clips; or the Invisible Slot. All three versions accommodate every type of Trulux tape light available, including the new Double Row Tunable.

Mini Flange pg. 66-67

Standard Flange pg. 68

Invisible Slot pg. 69

Features

- Made of lightweight double anodized aluminum
- Frosted lens protects light source while evenly diffusing light
- Field cuttable housing, insert, and lens
- Aluminum provides excellent heat dissipation
- Mounting clips and ends are available
- Compatible with all Trulux Tape Light

Available Lengths

78-3/4" (2 meter)

Available Finishes

Anodized Aluminum

Compatible Tape Light

- Trulux Single Color
- Trulux Tunable CCT
- Trulux RGB / RGBW / RGB+TW

TRULUX™ Mini Flange Slot Channel

For seamless lines of light that blends directly into the wall or substrate, the mini flange channel is a premium solution for applications where modern clean lines of light are a must. Simply pre-install dedicated housing slots during new construction drywalling phase and snap in the finished channel and lens. Once completed, all you are left with is a stunning line of light incorporated into the wall or substrate.

Best suited applications:

Ceilings, wall slots, hallways, corridors, lobbies, theaters, and accent lighting

TRULUX™ Standard Flange Slot Channel

For remodeling applications, the standard flange channel is a great fit that can be retrofit into most existing installations. The standard flange can be installed simply by cutting into existing drywall or substrate and securing into place with spring loaded clips or construction adhesive. Making for a simple yet impactful line of light for most unique tape light installations.

Best suited applications:

Ceilings, wall slots, hallways, corridors, lobbies, theaters, and accent lighting

TRULUX™ Mini Double Flange Extrusion

The mini double flange is a traditional recessed mount extrusion that features flanged edges that masks the recessed edge making for a clean and modern install. With a slim recessed profile, use when mounting depth may be limited such as cabinet shelving or substrates when deeper regressed extrusions will not work.

Best suited applications:

Stairs, handrails, display shelving and cases, niche and accent lighting

39-3/8" (1 meter)

Available Finishes

Anodized Aluminum

Compatible Tape Light

- Trulux Single Color
- Trulux Tunable CCT (excludes Double Row)
- Trulux RGB

TRULUX™ Helm Extrusion

The Helm extrusion is an in-grade solution for incorporating seamless lines of light into flooring, facades, architectural installations. Best used in conjunction with tile or wood flooring applications that can withstand common day to day foot traffic. Can be used in wet location applications when proper sealing techniques are followed.

Best suited applications:

Interior/exterior walkways, tile/wood flooring, facades, and hardscape

POWER SUPPLIES

Features

- Made of lightweight high quality aluminum
- Frosted lens protects light source while evenly diffusing light
- Extrusion and lenses are field cuttable
- Aluminum provides excellent heat dissipation
- End caps provide a tailored look
- Mounting clips available for surface applications
- Compatible with most Trulux Tape Light

Available Lengths

39-3/8" (1 meter)

Available Finishes

Anodized Aluminum

Compatible Tape Light

- Trulux Single Color
- Trulux Tunable CCT (excludes Double Row)
- Trulux RGB

TRULUX™ Premium 45 Extrusion

Intended for corner light applications, the Premium 45 features an angled design making for a sleek and modern design aimed towards accenting store window frames and other pass-through applications. Featuring angled edges, the Premium 45 is a practical but versatile extrusion for corner installations.

Best suited applications:

Display cases, window framing, shelving, cabinetry, and accent lighting

Downlighting

Save energy with the following downlighting choices designed to suit various retrofit, remodel and new construction needs for both residential and commercial applications. The new EPIQ Mag offers 3300 lumens, an 8" aperture and 1-10V dimming. The EPIQ Mags are also joined by the EPIQ Direct downlights that feature flip tabs for quick and easy installation. When clearance is extremely limited, the new Brios install quickly and efficiently.

LED Advantage AD4S Swivel Downlight

The LED Advantage series of recessed downlights make it simple and affordable to upgrade existing recessed housings to LED. Featuring a swivel or adjustable design, the AD4S downlight works well in a variety of residential and commercial applications with a rated life of 50,000 hours and a color rendering index of 90+.

Technical Information

Series	AD4S
Input Voltage	120V AC, 60Hz
CCT	3000K
CRI	90+
Wattage	8W
Lumens	500Lm
Beam Angle	91°
Dimmable	10-100%
Mounting	Recessed mount to existing can
Rating	cETLus Listed (damp location)
Rated Life	50,000 hrs

Ordering Information

AD4S-30-WH Advantage 4" Swivel - White / 3000K / 500Lm / 8W

Features

- Excellent color rendering (90+ CRI)
- 3000K color temperature
- Up to 700 lumen output
- Consumes only 8 watts
- Features swivel design for greater flexibility
- Dimmable with most TRIAC, CL, or ELV dimmers
- cETLus Listed for damp locations
- 35,000 hours rated life
- ENERGY STAR certified

Available Finishes

Listing / Ratings

Commercial Grade Light String

Use Commercial Grade Light String in reels, interconnect-able kits, or cord and plug sets with three socket size and spacing combinations for decorative/event/festive lighting applications. Suitable for outdoor, year-round use. For spans up to 20 feet, use eye bolts and plastic ties to anchor ends. For spans longer than 20 feet, use catenary cable (sold separately) with plastic ties at each socket.

Technical Information

Series	LS / LS2 / ETLS
Input Voltage	120V AC, 60Hz
Wattage	Max per socket: 25W (E26) / 10W (E17 / E12)
Max Run	See individual product
Socket	E26 (medium)
Spacing	24" (E26) / 15" (E17) / 12" (E12)
Cuttable	Yes* **
IP Rating	IP64**
Rating	Indoor/Outdoor; Suitable for year-round use*
Rated Life	Varies by lamp used

* All LS products are non-rated; LS2 and ETLS interconnect-able kits are cETLus Listed for wet location use, however safety rating is void if product is cut. Not intended for installation in ceilings, soffits, cabinets or other enclosed spaces.

**For non-cut cETLus Listed LS2 product, interconnected strings must be properly sealed and strain relief protected with electrical tape at each connection point. For non-rated LS product, any cut ends must be sealed with LS-M/MS-END and/or electrical tape (ensure proper seal to preclude entrance of water).

Architectural Lighting

Cast light upon buildings, landscaping, sign-age and sculptures with various architectural lighting tools. Step Lights offer safety and visibility for perimeters, landings and stairways. Ground Floods highlight sign-age and landscape backdrops. Area Floods and Wall Mounts mark entrances, light parking lots, secure side yards and more. Use Wall Washers for grazing columns, building facades and architectural details to reveal textures and add dynamic effects.

Features

- 3000K Warm White color temperature
- Up to 465 lumens, consuming only 6 watts, delivering over 77 lumens per watt
- Gasketed construction is suitable for use in areas exposed directly to rain and snow (wet locations)
- Locking swivel arm with heavy-duty thumb screw
- Includes mounting bracket with ground screw, #8-32 bolts, and acorn nuts
- 50,000 hours rated life

Listing / Ratings

Radar Swivel

Compact area light with a locking swivel head lights up exterior corridors, landings, back alleys, garages, eaves, and side yards. Warm White LEDs are ideal for light residential use. Die-cast coated aluminum housing with clear polycarbonate lens can be mounted four or more feet above ground.

Technical Information

Series	AL-RAD-SW
Input Voltage	100-150V AC, 50/60Hz
CCT	3000K
CRI	84+
Wattage	6W
Lumens	443-465Lm
Beam Angle	155°
Dimmable	N/A
Dimensions	4-1/4" Dia. x 8"L
Mounting	Surface mount
Rating	cULus Listed (wet location)
Rated Life	50,000 hrs

Ordering Information

AL-RAD-SW-WH	White Radar Swivel (6W / 465Lm)
AL-RAD-SW-DB	Dark Bronze Radar Swivel (6W / 443Lm)

Features

- Low profile design meets ADA requirements
- 3000K Warm White color temperature
- Up to 463 lumens, consuming only 6 watts, delivering over 77 lumens per watt
- Gasketed construction is suitable for use in areas exposed directly to rain and snow (wet locations)
- Includes integrated 120V driver and universal mounting bracket
- 50,000 hours rated life

Available Finishes

Wedge

This multi-purpose wall mount serves as a practical area flood for residential and light commercial interior or exterior applications. Die-cast aluminum coated housing with clear polycarbonate lens is suitable for wet location and meets ADA requirements with its low profile frame.

Technical Information

Series	AL-WG
Input Voltage	100-150V AC, 50/60Hz
CCT	3000K
CRI	84+
Wattage	6W
Lumens	441-463Lm
Beam Angle	65°
Dimmable	N/A
Dimensions	4-3/4"W x 7-3/4"H x 3-3/16"D
Mounting	Surface mount
Rating	cULus Listed (wet location)
Rated Life	50,000 hrs

Ordering Information

AL-WG-WH	White Wedge (6W / 463Lm)
AL-WG-DB	Dark Bronze Wedge (6W / 441Lm)

Features

- Durable aluminum alloy housing with enamel finish and tempered glass lens
- Bright 3000K LED light saves energy and reduces maintenance
- Built-in driver and five foot grounded power cord
- Integrated mounting holes in base/leg brackets and adjustable tilt design for flexibility
- IP65 rated (wet location)
- 60,000 hours rated life

Available Finishes

Satin Aluminum

Power Supplies

The foundation of low voltage lighting systems are the drivers and transformers. Depending on whether dimming is needed, and the type of dimming controls used, there is an array of Constant Voltage, Constant Current and Alternating Current power supplies to choose from.

Features

- 12V or 24V DC constant voltage hardwire driver
- Short circuit, over-voltage, over-temperature, and overload protections
- Forward phase and reverse phase compatible
- Slim, compact aluminum housing
- cULus Listed damp location rated
- Class 2, Class P, Type HL
- FCC Compliant

Wattage/Voltage Options

- 30W (12V)
- 30W (24V)

Dimming Options

- Phase dimming compatible with MLV, ELV, TRIAC dimmers

Listing / Ratings

12V / 24V Adaptive Series - 30W

The Adaptive phase dimming class 2 drivers are designed to operate with any standard MLV / ELV / Incandescent TRIAC (forward phase) dimmer switch or can also be used with secondary side controls such as Trulux Lighting Systems. Encased in a low profile aluminum enclosure that includes knock-outs for easy installation in any low voltage application.

Technical Information

Series	ADPT-DRJ 30W
Max Load	30W
Minimum Load	3W
Input Voltage	100-277V AC
Output Voltage	12V DC / 24V DC
Dimmable	Primary or Secondary side dimming
Efficiency	> 79% (120-277V)
Operating Temp.	-40°F to 140°F (-40°C to 60°C)
Rating	cULus Listed for damp locations
Dimensions	6.49"L x 3.6"W x 1.02"H

Ordering Information

LED-DR150-12	LED-DR 12V - 150W Driver
LED-DR150-24	LED-DR 24V - 150W Driver

Features

- Class 2 12V or 24V constant voltage driver
- Available wattages include 30W and 45W
- Dimmable with standard leading edge dimmers (aka forward phase, MLV, Incandescent, TRIAC) and trailing edge dimmers (aka 2-wire reverse phase, ELV)
- Slim compact housing design features built-in terminal blocks with integrated wire cover strain reliefs
- cETLus Listed (indoor dry locations)
- FCC Compliant
- RoHs Compliant

Wattage/Voltage Options

- 30W (12V)
- 30W (24V)
- 45W (12V)
- 45W (24V)

Dimming Options

- Forward phase
- Reverse phase
- ELV
- TRIAC

Listing / Ratings

ELV 30W / 45W DC Driver - 12V / 24V

The 30W and 45W ELV drivers feature cETLus Listing with high reliability and Class 2 rating. Standard built-in protections include short circuit, over-current, over-voltage, and over temperature. ELV drivers can be used in dimming applications with a 60% minimum load attached; and in non-dimming applications with no minimum load requirements. Durable plastic housing features integrated terminal blocks, wire cover strain reliefs and carries an IP20 level of ingress protection.

Technical Information

Series	ELV 12V / 24V
Max Load	30W / 45W
Minimum Load	1W (non-dimming); ELV-30: 18W, ELV-45: 27W (dimming)
Input Voltage	100-130V AC, 50/60Hz
Output Voltage	12V DC / 24V DC
Power Factor	0.95
Dimmable	Forward phase / Reverse phase / ELV / TRIAC
Efficiency	> 84%
Input Wire	12AWG max
Output Wire	12AWG max
Operating Temp.	-22°F - 122°F (-30°C - 50°C)
Rating	cETLus Listed (dry location)
Dimensions	7-1/16"L x 2-3/8"W x 1-3/8"H

Ordering Information

ELV-30-12	ELV 12V - 30W (0.41A input / 2.5A output at max load) Driver
ELV-45-12	ELV 12V - 45W (0.61A input / 3.75A output at max load) Driver
ELV-30-24	ELV 24V - 30W (0.76A input / 2.5A output at max load) Driver
ELV-45-24	ELV 24V - 45W (1A input / 3.33A output at max load) Driver

Features

- Class 2 12V or 24V constant voltage driver inside metal housing
- Available wattages include 60W and 80W
- Dimmable with standard leading edge dimmers (aka forward phase, MLV, Incandescent, TRIAC) and trailing edge dimmers (aka 2-wire reverse phase, ELV)
- 1/2" knockouts on both the primary & secondary
- cETLus Listed (wet locations*)
- FCC Compliant
- RoHs Compliant

Wattage/Voltage Options

- 60JW (12V)
- 60JW (24V)
- 80JW (12V)
- 80JW (24V)

Dimming Options

- Forward phase
- Reverse phase
- ELV
- TRIAC

Listing / Ratings

ELV 60J / 80J DC Driver - 12V / 24V

The 60W and 80W ELV drivers feature cETLus Listing with high reliability and Class 2 rating. Standard built-in protections include short circuit, over-current, over-voltage, and over temperature. ELV drivers can be used in dimming applications with a 60% minimum load attached; and in non-dimming applications with no minimum load requirements. Metal housing features ventilation perforations, three 1/2" knockouts at end and carries an IP66 level of ingress protection.

Technical Information

Series	ELV 60J / 80J
Max Load	60W / 80W
Minimum Load	1W (non-dimming); ELV-60: 36W, ELV-80: 48W (dimming)
Input Voltage	100-130V AC, 50/60Hz
Output Voltage	12V DC / 24V DC
Power Factor	0.95
Dimmable	Forward phase / Reverse Phase / ELV / TRIAC
Efficiency	> 84%
Input Wire	5" 18AWG SJOW x3C
Output Wire	5" 18AWG SJOW x2C
Operating Temp.	-22°F - 122°F (-30°C - 50°C)
Rating	cETLus Listed (wet locations**)
Dimensions	13-3/4"L x 3"W x 2-5/16"H

*Must be mounted higher than 1 foot off the ground

2-wire DC Adapter Accessory (DC-VPI)

2-wire DC Adapter Accessory (DC-HW)

Listing / Ratings

PS Plug-in Driver - 12V / 24V

Use one of these five constant voltage DC power supplies for non-dimming plug-in applications, based on the capacity and voltage needed. The DC-HW accessory can be used with Trulux tape light, ideally with a switched outlet since the driver does not include an inline switch. Use the DC-VPI for powering low voltage products with bare leads, such as LightStar reels. cULus Listed for use in dry locations.

Technical Information

Series	PS Plug-in 12V / 24V
Max Load	See ordering information
Minimum Load	N/A
Input Voltage	120V AC
Output Voltage	12V DC / 24V DC
Dimmable	N/A
Input Wire	6ft 18AWG power cord + 3-prong plug
Output Wire	5ft 18AWG tail with male DC jack
Rating	cULus Listed (dry locations)
Dimensions	5-3/4"L x 2"W x 1-1/4"H (40W) 6-3/4"L x 2-3/8"W x 1-1/4"H (90W / 96W)

DC-HW	2-wire DC adapter cable - Bare wire to Male DC

Features

- Class 2 12W Constant voltage dimmable plug-in driver (15-100% control with most TRIAC dimmers)
- Features terminal block for easy wiring and in-line rocker switch on power cord for convenient On/Off control
- 6ft 18AWG power cord with 2-prong plug
- 6ft lead wire with attached terminal block
- cETLus Listed as a Recognized Component (dry locations)

Wattage/Voltage Options

- 12W (12V)

Listing / Ratings

PS Plug-in 12W Driver - 12V

This low profile dimmable plug-in driver has wire cover strain reliefs at both primary and secondary sides. It includes an attached terminal block to quickly connect low voltage lead wires. For dimming applications, a 4W minimum load must be met.

Technical Information

Series	PS Plug-in 12V
Max Load	12W
Minimum Load	3W (non-dimming); 4W (dimming)
Input Voltage	100-120V AC, 50/60Hz
Output Voltage	12V DC
Dimmable	15-100% (with TRIAC for most products)
Input Wire	6ft 18AWG power cord + 2-prong polarized plug
Output Wire	5ft 24AWG tail with 4-port terminal block
Rating	cETLus Recognized (dry locations)
Dimensions	5-1/4"L x 2"W x 11/16"H

Ordering Information

PS-12-12VPI-T	PS Plug-in 12V - 12W Driver
----------------------	-----------------------------

Features

- 12V or 24V AC output dimmable transformer
- Wattages ranging from 30W up to 150W
- Stainless steel enclosure with powder coat finish, hinged tension fit door, and hang tab
- 1/2" knockouts for easy wiring
- Manual reset switch
- Requires 12" clearance above and around housing if load exceeds 80% of total capacity
- Nema 3R - Indoor and outdoor use
- Thermal-magnetic breakers on both primary and secondary side with manual reset
- cETLus Listed (30W)
- cULus Listed (60W / 100W / 150W)

Wattage/Voltage Options

- 30W (12V / 24V)
- 60W (12V / 24V)
- 100W (12V / 24V)
- 150W (12V / 24V)

Dimming Options

- TRIAC
- MLV

Listing / Ratings

LED-TR Magnetic Transformer - 12V / 24V

Dimmable with leading edge dimmers (aka forward-phase, TRIAC, magnetic low voltage, incandescent) while operating quietly and efficiently. A 40% minimum load is required for dimming applications. The stainless steel housing features power coat finish, hang tab and 1/2" knockouts. Rated Nema 3R for indoor and outdoor use.

Technical Information

Series	LED-TR 12V / 24V
Max Load	30W / 60W / 100W / 150W
Minimum Load	40%
Input Voltage	120V AC, 60Hz
Output Voltage	12V AC / 24V AC - 120Hz*
Dimmable	TRIAC / MLV
Input Wire	N/A
Output Wire	N/A
Operating Temp.	Up to 131°F (55°C)
Rating	cULus Listed; Nema 3R - Indoor and outdoor
Dimensions	6"L x 3-1/8"W x 1-1/2"H (30W)
	9-1/4"L x 3"W x 3"H (60W)
	9-1/2"L x 4"W x 4"H (100W / 150W)

* Since the output is 12V or 24V AC at 120Hz, it is not recommended for use with linear LED products, Trulux products, or Festoon Light String with LED modules.

Features

- Constant voltage + Constant current modes
- 3-in-1 dimming capable: 1~10VDC, 10V PWM and resistance dimming
- Maximum wattage output up to 60W
- Built-in active Power Factor Correction (PFC)
- Class 2 design and IP65 rating
- Auto-reset protection for short circuit and over-voltage
- cURus Listed to UL8750 Standard "Type HL"

Wattage/Voltage Options

- 60W (24V)

Dimming Options

- 1-10V DC
- 10V PWM
- Resistance Dimming

Listing / Ratings

0-10V Dimming 60W Driver - 24V

This Class 2 CCV-DR60-24* 0-10V dimming driver features a dual mode constant voltage and constant current output. Featuring a metal housing with Class I design which allows it to operate with a case temperature from -40°F to 176°F under free air convection. Standard built-in protections include short circuit, over-current, over-voltage, and over temperature. The metal housing carries an IP65 ingress protection allowing it to be used in both indoor and outdoor applications, with type HL rating for hazardous location use.

Technical Information

Series	CCV 60W
Max Load	60W
Minimum Load	1W (non-dimming); 36W (dimming)
Input Voltage	90-305V AC, 47~63Hz
Output Voltage	24V DC
Power Factor	≥0.98/115V AC, ≥0.95/230V AC, ≥0.92/277V AC at full load
Dimmable	1~10V DC, 10V PWM signal, and resistance
Efficiency	89.5%
Input Wire	11" 18AWG SJTW x3C
Output Wire	11" 18AWG SJTW x2C or 11" 18AWG x2C UL2517
Operating Temp.	-40°F - 176°F (-40°C - 80°C)
Rating	cURus Recognized (wet or dry locations; UL8750)
Dimensions	6-3/4"L x 2-7/16"W x 1-15/32"H

***AVERAGE LIFE**

Average incandescent lamp life, rated life and average life are terms used to describe the number of hours at which half of the lamps have failed. For LEDs, the hours of rated life specify the point where 70% of original lumen output is reached. Below this point, the effective life is over, however, the LED may still emit light. Individual results may vary with actual environmental conditions including, but not limited to, proper installation, ambient temperature and/or input voltage fluctuations.

†Standard Linear Warranty applies. See page 223 for details.

**Limited Product Warranty applies to lengths up to 75 feet. See page 244 for details.

†† Warranty life based on average 3 hours/day use, 7 days/week.

Warranty Information Continued

LIMITED PRODUCT WARRANTY

Our products are warranted to be free from defects in material and workmanship for the warranty period listed on the reverse by product category. Warranty periods begin from the date of shipment from American Lighting Inc's warehouse to the original purchaser. Products that prove to be defective during their specific warranty period will be either repaired or replaced, at the sole discretion of American Lighting Inc. Claims for defective products must be submitted in writing to American Lighting Inc's RGA Department within the warranty period. Upon approval of such return, American Lighting Inc reserves the right to inspect the product for misuse or abuse. Claims for indirect or consequential damages or for product that, in American Lighting Inc's opinion, has been misused will be denied. This is a warranty of product reliability only and not a warranty of merchantability or fitness for a particular purpose. American Lighting Inc shall have no liability whatsoever in any event for payment of incidental or consequential damages, including, without limitations, installation costs and/or damages for personal injury and/or property. These products may represent a possible shock or fire hazard if improperly installed or altered in any way. This warranty does not apply to any product that has not been properly installed in accordance with current local codes and/or the National Electrical Code. Products that require a transformer, driver or power supply must be used in conjunction with American Lighting Inc's recommended power supply to ensure safety and retain product warranty.

STANDARD LINEAR WARRANTY

Rope light and linear lighting products in all their various types and shapes, whether LED or incandescent, are wired in series parallel. This means that several individual lamps or LEDs are wired together in series to equal 12V, 24V or 120V. Then these sections are wired together (in parallel) to light up in unison. If one solder joint, lamp or resistor fails, a whole section will not light. Due to the number of elements involved, and the numerous extenuating circumstances beyond our control, American Lighting Inc offers a Standard Linear Warranty on most linear lighting products. The limited liability warranty is listed above, however the Standard Linear Warranty offers replacement product by section due to defective material and/or workmanship for one year beginning from the date of shipment from American Lighting Inc's warehouse to the original purchaser.

USE OF LINEAR LIGHTING IN OUTDOOR APPLICATIONS

Incandescent rope light and LED Flexbrite UL 2388 custom cuts; incandescent and LED Flexbrite pre-packaged kits; and UL Listed (special order) cuts of LED Neon Flexbrite Plus and Economy have factory assembled power connections and end caps that seal the rope from moisture. Due to strict quality control standards, American Lighting is able to offer a limited warranty on these items rather than the standard linear lighting warranty that replaces product by defective section only. For outdoor applications, best practices include using kits interconnected (same length kits are best for color control of White LED Flexbrite) or using custom cuts that do not exceed 75 feet.

For all linear lighting categories, any non-rated field connection made in an outdoor application should be properly sealed with dielectric grease covering all conductive materials; and properly installed power connections and end caps, sealed with silicone and heat shrink tube. However, since non-rated (field executed) power connections of linear lighting products cannot be quality controlled, and outdoor use of non-rated product is not recommended, American Lighting cannot warrant the product to any purchaser.

PRODUCT SPECIFICATIONS

For the latest product information, updates, instructions and details concerning specifications, colors, finishes, performance, installation and design, visit www.americanlighting.com. Color may vary from the color printed herein due to limitations in photographic and printing processes. American Lighting Inc. reserves the right to change product specifications without notice. Other product specifications such as color temperature, wavelength characteristics and lumen output are subject to production limitations and may vary.

LED technology is changing rapidly, and not all color temperatures and performance levels can be duplicated at a later time. Best practices include purchasing 10-15% more for a particular project on the same initial order where white LED color temperatures must be maintained over project and product life. Eventual product replacement should be considered at layout and design stages. Best practices also include testing connections and product performance prior to mounting and/or installing.
