

SPEKTRUM SMART LIGHTING

Spektrum Smart Lighting is American Lighting's new Bluetooth mesh connected product line. Focusing on smart home integration, the Spektrum Lighting app provides instant lighting control that allows users to customize their lighting spaces to their liking. From simple dimming controls to advanced scene settings, unlock whole home connected lighting with Spektrum Smart Lighting.

SPEKTRUM SMART LIGHTING APP FEATURES:

- Compatible with most iOS and Android Smart Devices
- Easy dial control for Single Color, Tunable CCT, or RGB+TW fixtures
- Use zones to create groupings of lights
- Create custom presets with color or brightness settings
- Set timers & schedules to automate your lighting
- Create fun color changing effects with reactive audio sequences
