

# TRULUX™ Single Color Custom Cut Cheat Sheet

With our easy to use cheat sheet, we've done most of the guess work for you! If your application length falls between specified cuttable lengths, we recommend rounding to the nearest cut increment for optimum efficiency. Three foot lead wire comes standard, but you can also specify additional feet if needed. Be sure to consider voltage drop when determining tape light and lead wire length.

For additional lead wire and voltage drop information, please refer to the [Trulux Custom Cut Brochure](#)

## TRULUX™ STANDARD

2.7W per ft / 140-155Lm per ft  
Cuttable 6.56" / Max Run 32.8 ft

Feet	Inches	Feet	Inches
0ft	6.56"	16ft	5.2"
1ft	1.1"	16ft	11.8"
